High pressure
cleaning equipment
for professionals

HB703

SPECIFICATIONS

Max pressure in:	70-700bar / 987-9877psi*
Max flow in:	30l / min 1800l / h*
Heating power:	85kw
Max Temp:	99°C – 150°C
Motor voltage:	230v, 110v single phase 50Hz, 12volt
Engine power:	0.5kw
Motor pump:	N / A
Fuel tank:	18l
Water tank:	N / A
Dimensions:	75x60x80cm
Weight:	82kg

* infinitely variable pressure and volume

This model is only for open bypass solutions

STANDARD FEATURES/EQUIPMENT

- 2 meter high pressure connecting hose
- Supplied with dump gun with open bypass

SAFETY FEATURES

- Thermostat
- Flow switch
- Overheat safety
- Flame surveillance (for automatic safety cut out)

IDEAL APPLICATIONS

- Converting cold water pressure washing system to hot
- When hot water/steam is required, used in conjunction with ME/MP and MD series

OPTIONAL EQUIPMENT

- High pressure lance
